MORE THAN JUST A SHOT IN THE DARKSM

Tame that Digital Camera! Experiences and Class Schedule Summer and Fall 2019

Introduction to Digital Photography

Be the Boss! Take control of your digital camera. Learn the purpose of all those buttons and dials. This class is designed for both point-and-shoot and DSLR camera users. Hands-on exercises and demonstrations will help clarify your learning experience. Bring your camera, charged batteries, memory cards and manual to this interactive class.

This expanded course includes camera operations, lighting (natural and flash), composition, how to photograph people, and critique of student work. New and stimulating projects include creativity exercises, night photography, and a Saturday field session on campus. Bring your camera, charged batteries, memory cards, tripod and owner's manual to this hands-on collaborative class. (+ One Saturday field session on campus.)

Night Photography Magic

Learn the basic skills of photography after dark. We will work with still subjects, moving objects and even write with light to master long exposures. Bring a flashlight, your tripod, camera, charged batteries, owner's manual and sense of adventure in the dark! Meet outside in front of the Library. [Rain date = TBD]

Outdoor Photography at Tucker Wildlife Sanctuary

Beginning and intermediate photographers will capture images of birds and wildlife at Tucker Wildlife Sanctuary in Silverado Canyon. We will explore this small nature preserve located in the heart of Modjeska Canyon and also study how to create unique environmental portraits. Bring camera, charged batteries, memory cards, and the owner's manual. There is a \$3.00 donation fee at the gate.

How to Photograph Your Artwork and Copyrighting

Are you an artist who needs your artwork photographed? Are you a photographer who needs to copyright your images? This essential class demonstrates how to use simple tools to copy and copyright your work. From lighting to processing, navigating the Washington DC Copyright office online, and producing digital files for juried art shows and reproduction. This course takes the mystery out of producing and protecting your work.
